

NARRATIVE: Beginning on July 20, 1982, with a Franke Theodolite and a MQC 1-H E.D.M. we ran a random traverse line from the S. 1/4 corner of Section 12 to the S.W. corner of Section 12; thence to the E. 1/4 corner of Section 14; thence back to the S. 1/4 corner of Section 12. The unadjusted closure of this traverse was 1 foot in 31,800 feet. From this traverse we tied in the corners and Bearing Trees shown hereon and calculated offsets to the true lines of the westerly 1026 feet of the south line of Section 12 and the northerly 1312.17 feet of the east line of Section 14. We flagged and blazed these lines and set the corners shown. The field survey was completed on August 11, 1982.

Philip Dewey Land Surveyor
 Courthouse
 St. Helens, Oregon 97051

Scale: 1" = 200 ft.

Basis of bearing is Deed Book 106, Page 129
 (along the S. line of Section 12)

See Field Bk. 137, Pg. 6-13
 See Work Map # 502
